RSHO - Blue and Gold Label Shelf Stability Approval Letter

HempMeds PX has submitted written information to the Public Health Inspections Division regarding their process for making Real Scientific Hemp Oil (RSHO) Blue and Gold Label Hemp Oil Syringes. Based on the procedure and pH results provided; HempMeds PX is approved to treat RSHO - Blue and Gold Hemp oil as a non-potentially hazardous foods not requiring time or temperature control for the following amounts: 3gram and 10 gram oral syringes. Failure to properly follow the approved procedures as submitted may result in a revocation of this approval based on public health concerns, and the above listed products may be deemed potentially hazardous foods needing refrigeration. Any changes to the process for making these products must be provided for evaluation by the Public Health Inspections Division in advance.

It is recommended that a copy of this approval letter be distributed along with any product going to Denver dispensaries. A copy will be maintained at the Public Health Inspections Division.

Abby Davidson
Environmental Public Health Food Program Supervisor

Note: Please be advised that this approval does not negate the possibility that further changes will be required in the future based on changing regulations, operational observations made during inspections, or other public health reasons. Any changes that your operation makes to its process for making the RSHO - Blue and Gold Label Hemp Oil syringe products must be approved by this Department in advance.
